

SIIMPLAFILL® 1000 **Micro HD**

1000 Micro HD

- Automatic gross sack filling and weighing machine
- Weighs from 2kg to 50kg directly into the sack
- Interchangeable valve or open mouth sack filling attachments
- Choice of vibratory, auger or gravity 'fast and slow' product feeders
- Twin 100kg R60 approved load cells for robustness and improved accuracy
- Automatic product in flight correction facility
- Low level probe

SIIMPLAFILL® 1000 Micro HD

Simplafill 1000 Micro HD	Technical Specifications
	Weighing range: 2kg to 50kg
	Filling rate: 3-4 per minute average @25kg density 100kg/1 cubic metre
	Accuracy: 0.5% of target weight (depending on product)
	Power requirement: 240v 16 amp single phase neutral and earth
	Air requirement: None in standard format
	Weight of machine: 125kg (without feeder)
	Standard features to include:
Overall dimensions (approx):	<ul style="list-style-type: none"> ● 2 x 100kg R61 approved load cells ● Fully side panelled enclosed machine ● Low level probe ● Automatic re zero and start filling facility ● Adjustable 'fast' and 'slow' filling rates ● 'Filling in progress' and 'At weight' illuminated beacons ● Mounted on castors for ease of transporting ● Screw down stabilizing feet for added stability during operation
Height: 1500mm (without feeder)	
Width: 670mm	
Depth (front to back): 1120mm	
Options available:	<ul style="list-style-type: none"> ● Epoxy coating paint ● Stainless steel direct contact parts ● All stainless steel construction ● Dust extraction cowl assembly ● Approved R61 weighing indicator ● Additional filling attachments ● Variable speed vibrator feeder ● Variable speed 100mm or 150mm diameter auger feeder

Principal of operation:

On clamping the sack in place, the machine automatically re zero's and filling commences. Product will discharge into the sack via a two speed 'course and fine' filling rate for increased accuracy. When the target weight is reached, 'At weight' will illuminate to indicate fill cycle complete. Remove sack and repeat.

Agent details:

As part of product development, A T Sack Fillers reserves the right to amend specifications without prior notice. Therefore published data may be subject to change.
